DISTINGUISHING FEATURES:

- Aluminum and/or wood construction
- 4-9/16" jamb depth
- Wood interior

HOW TO ORDER A PART:

Identify the part using the **exploded view** and index. Locate the part in the **replacement parts** section using the **reference number** from the exploded view and index for a detailed part view and ordering information. Use the **configured number**, **extrusion number**, and/or **part number** shown next to your part to place your order. **When identifying replacement parts, unit must be viewed from the exterior.** Replacement parts for non-rectangular special shapes can be ordered using the Order Form section #1203399.

- Exploded View:** Drawings show part location and are accompanied by indexes that reference part descriptions.
- Replacement Parts:** Sections contain detailed views of individual replacement parts and ordering information.
- Reference Number:** Shown in black boxes on the exploded views and listed numerically in the indexes. Parts appear sequentially by reference number in the replacement parts sections.
- Configured Number:** Use to enter your order in CustomQuote™.*
- Extrusion Number:** Reference when placing an order with your Customer Relations Representative.
- Part Number:** Reference when placing an order with your Customer Relations Representative.

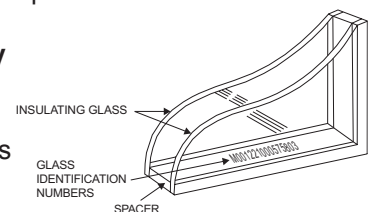

* **NOTE:** Some configured numbers MAY NOT be active at the time of your order. CustomQuote™ software is updated regularly to accommodate new configured numbers. If a configured number is not active, please comment the part for ordering. Contact your Customer Relations Representative for assistance.

GLASS IDENTIFICATION CODE:

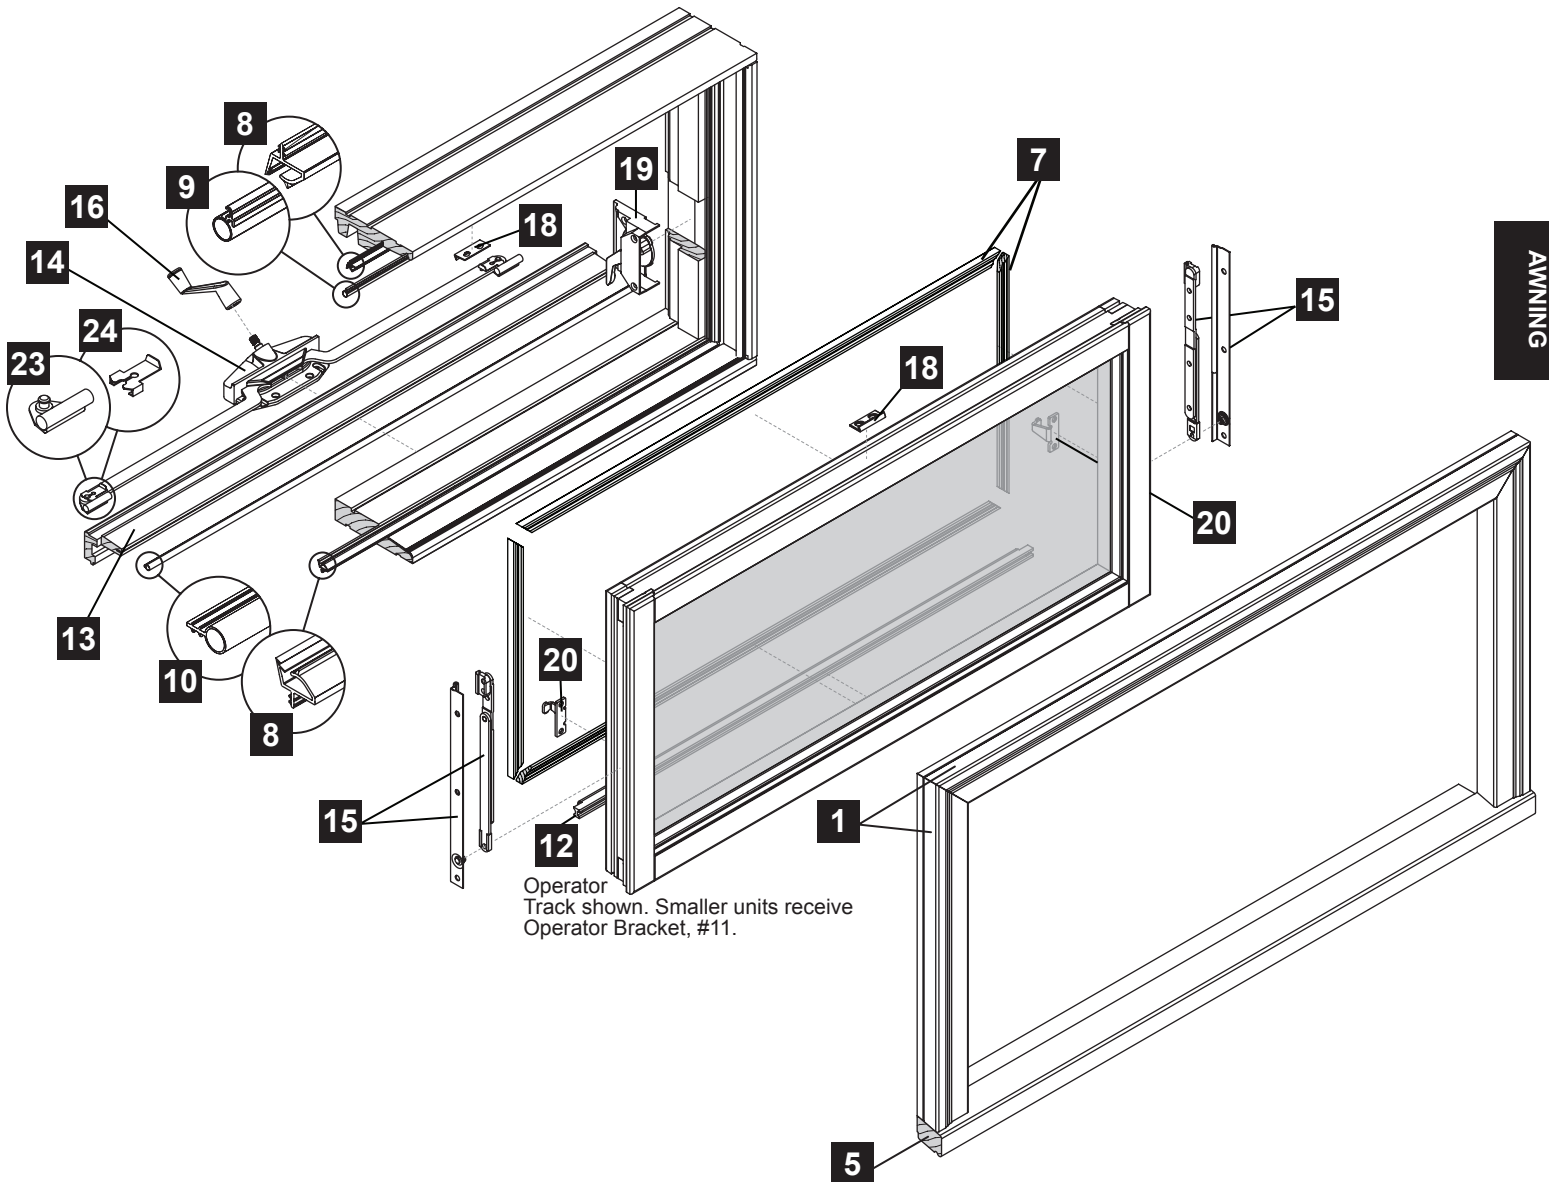

The glass code number references the date of manufacture, which is helpful in identifying the product.

When ordering warranty replacement glass, sash or panels, it is necessary to specify the glass identification code.

Markings are stamped on one of the four sides of the spacer which separates the two panes of glass. (see illustration at right)
